

# Digital Dentistry Society Switzerland Congress 2023

February 11<sup>th</sup>, 2023

Zentrum Paul Klee – Bern

Digital  
Dentistry  
Society  
Suisse

## Program

The **Digital Dentistry Society** is the reference, validation and educational platform of the digital dental science and technologies. DDS has Embassies, Partner Societies and Universities in **60 countries** and more than **830 active members** and **12.000 free members**. It organizes numerous international meetings and in particular the **Consensus Conference** and the **Global Congress**, alternatively every 2 years. This year we are hosting the 2nd national event in Switzerland, organized by the Swiss DDS embassy.

This congress will highlight the outstanding **contributions to the global advancement of digital dentistry** made at the various campuses in Switzerland. We invited specialists from different dental disciplines to present the latest developments in their particular field. You can look forward to a congress where every lecture will be a highlight. So take the unique chance to sign in for the congress – we hope to welcome you in Bern.

Dr. Christian Monti

Dr. Samir Abou-Ayash
